## Dear School Leadership,

The 2013-2014 School Data Book (paper version) has been compiled to present a snapshot summary of core census and budget data of the PreK-12 Catholic schools of the Archdiocese of Seattle. These self-reported statistics from each school community are valued and helpful for planning purposes. Confidential individual salary information for the principal, president, development director, and secretary is not included for full distribution in this publication.

Pastors and principals may request in writing a confidential datasheet that will show the specific salary information for their respective region only. Requests should be directed to the Superintendent of Catholic Schools. Since it is self-reported data, this confidential information should be used only as a guide to planning.

The electronic version of the 2013-2014 School Data Report is where the complete dynamic and interactive Annual School Data report and longitudinal data is available for study. Printing and PDF capabilities are available. Principals/School Pastors have a private password on OCSww.org to study the comprehensive 2013-2014 data collection that includes testing and assessment information, salary averages, instructional materials, and technology trends that are being implemented in our 74 schools. We hope this body of information will provide each reader with robust information about our Catholic schools.

## Sincerely,

(Rev.) Stephen C. Rowan, Ph.D.
