

Summer Professional Development Courses for Educators

Take a class through Creighton University's Center for Professional and Corporate Excellence, and learn new skills to bring back to your school.

Drone Aviation

May 13–June 15 | Online Hybrid | \$1,295

Ready to fly drones? Take to the sky by enrolling in the most comprehensive drone aviation program in the region! Elevate your hobby and make drone aviation a part of your classes and labs. Participants will learn how to use drones safely, prepare for the FAA exam, use cutting-edge flight simulators and fly scenario-based missions with expert instructors.

Happiness in the Workplace

May 21 | 8:30 a.m.–12 p.m. | On Campus | \$125

Research shows that people who have high well-being and strong resiliency are often happier and more productive. This class will focus on strategies for improving or maintaining levels of resiliency and well-being both at the individual and supervisory levels.

All Learning is Social Emotional Learning

June 3–28 | Online | \$495

Social emotional learning (SEL) is gaining a lot of attention due to the emphasis in the Every Student Succeeds Act (ESSA), but what is SEL and how do schools make sure it's being addressed? Register for this course to get answers to these questions and learn strategies for promoting a vibrant culture for all students.

Navigating the Multigenerational Workplace

June 19 | 9 a.m.–12 p.m. | On Campus | \$125

For the first time in America's modern history, there are five generations in the workplace. This workshop will address the mainstream media myths of generational warfare in the workplace and provide insight about each generation's strengths, preferences and communication styles.

Restorative Justice in Schools

July 8–31 | Online | \$495

Restorative justice is a powerful approach to discipline that focuses on repairing harm through inclusive processes that engage all stakeholders. Implemented well, it shifts the focus of discipline from punishment to learning. Attend this course to gain a richer understanding of how to use these practices in your school.

Design Thinking for Educators

June 17–July 16 | Online Hybrid | \$795

Unleash your creative mindset and take your classes to the next level. Learn the tools and methods professional designers employ to solve complex challenges. This course will give teachers new, innovative, creative approaches that can be rapidly employed in the classroom. Participants will get a design thinking tool kit, quick reference guide, sample lesson plans and more.

3D Printing for Educators

July 29–31 | 9 a.m.–4 p.m. | On Campus | \$895

This workshop is geared toward teachers who are new to 3D printing. Explore how to bring 3D printing to your classroom and learn about the related software and hardware. The course includes lesson plans and a 3D printer and filament to take with you and use in your classroom at the end of the workshop. Attendees must bring a laptop. See the registration page for technical requirements.

Courses for Students

The transition to high school or college is a big step! Set incoming or outgoing students up for success by encouraging them to sign up for one of Creighton University's enrichment programs. They're designed to help students understand what to expect and build excitement for the next stage of their academic journey. All students are welcome, regardless of where they're headed next.

How to High School

July 10–12 | 9 a.m.–3:30 p.m. | On Campus | \$400

How to College

June 19 | 9 a.m.–3:30 p.m. | On Campus | \$140
