

## Title IIA Allocation Calculator

Formula to Determine Amount for Title IIA, Private School Equitable Services Allocation	Example	My District
<b>A. Number of Students</b>		
A1: District Enrollment	900	
A2: Private School Enrollment (this includes all private schools in district who participate in Title IIA)	100	
A3: Total Enrollment= A1 + A2	1,000	
<b>B. Title IIA Allocation</b>		
B1: Total District Allocation	\$1,000,000	
B2: Administrative Costs (for public and private school programs) *Ask the district what this cost was last year for a point of comparison	\$50,000	
B3: District Allocation Minus Admin Costs= B1- B2	\$950,000	
<b>C. Per Pupil Rate</b>		
C1: B3 divided by A3	\$950	
<b>D. Equitable Services Allocation</b>		
D1: Amount the district must reserve for equitable services for private school teachers and other educational personnel= A2 X C1	\$95,000	
<b>E. Title IIA Allocation for My School</b>		
E1: Per Pupil Rate (C1) X Number of Private School Students in My School (Ex: 70 students)	\$66,500	

\*Adapted from the November 2016 [Fiscal Changes and Equitable Services Non-Regulatory Guidance](#), P-2 (page 35).

**Ask your school district for the following information, and you will be able to use the chart above to calculate your school's allocation:**

- District Enrollment
- Total Private School Enrollment
- Total District Allocation
- Administrative Cost
